Additional:

Clean immediately after use to stop a build-up of dirt and limescale.

Clean with warm water containing a few drops of washing-up liquid, rinse immediately and dry with a soft cloth.

Do not use products such as paint stripper, nail varnish remover, household bleach, perfume, aftershave and strong disinfectants, as chrome is vulnerable to acid attack. These may have a varying effect on the surface from black spots or streaks, which can't be removed due to the corrosion of the surface.

Do not scratch the finish as this can be a cause for corrosion.

Clean with abrasive materials or products containing bleach.
