Glow-worm

The energy you need

Energy

boiler range

At the heart of your home

Energy bringing connectivity home...

More than you've come to expect from a boiler

Gone are the days when your heating boiler just sat on a wall in your house.

The latest advances in Glow-worm technology have led to a totally new range of boilers with the ability to actually connect with you, your installer and the help and support of Glow-worm. We call it Energy and with good reason. You want a boiler that's going to last, that keeps on working day-in, day-out and costs as little as possible to run. Energy does all this and more. For the first time, it brings you connectivity.....

* Available October 2015

Connected controls - putting you in charge

Whichever Energy model you choose, as well as a clear, straightforward display on the boiler itself, there's a great choice of controls that allow you to control your water heating and temperature comfort levels in the way that suits you best. These range from simple, wall mounted thermostats to wireless hand-helds, and now with the new MiGo* you can even control your boiler from your smartphone, any time, anywhere in the world.

You couldn't be better connected.

Online connectivity - for help & information

As the owner of a Glow-worm Energy boiler you'll also have direct access to information about your boiler's functionality, service history, your installer's help and a vast array of support materials via your own online customer portal myGlow-worm.co.uk. Here you can watch how-to videos, access vital documents, download user manuals, or apply for an extended warranty whenever you like. You can even contact your installer to book a service, or ask for a quote for some additional work.

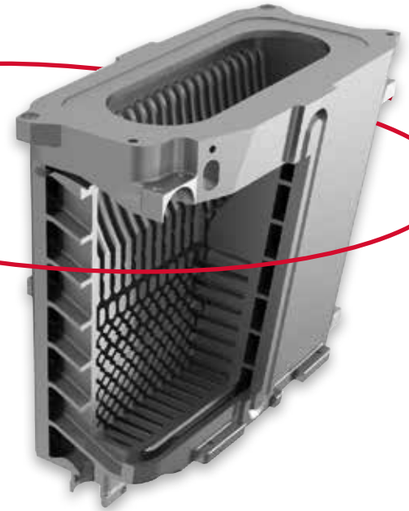

Energy built so well, you can forget it

Glow-worm boilers are well-known for being well-made - and Energy won't disappoint.

That sleek, minimal casing hides sophisticated components engineered to the highest possible standards and built right here in the UK. Everything is designed for low maintenance and long life. Shown here is Energy's highly efficient, whisper-quiet automotive grade aluminium heat exchanger. Take a good look, Energy is so reliable, you'll probably never see it again.

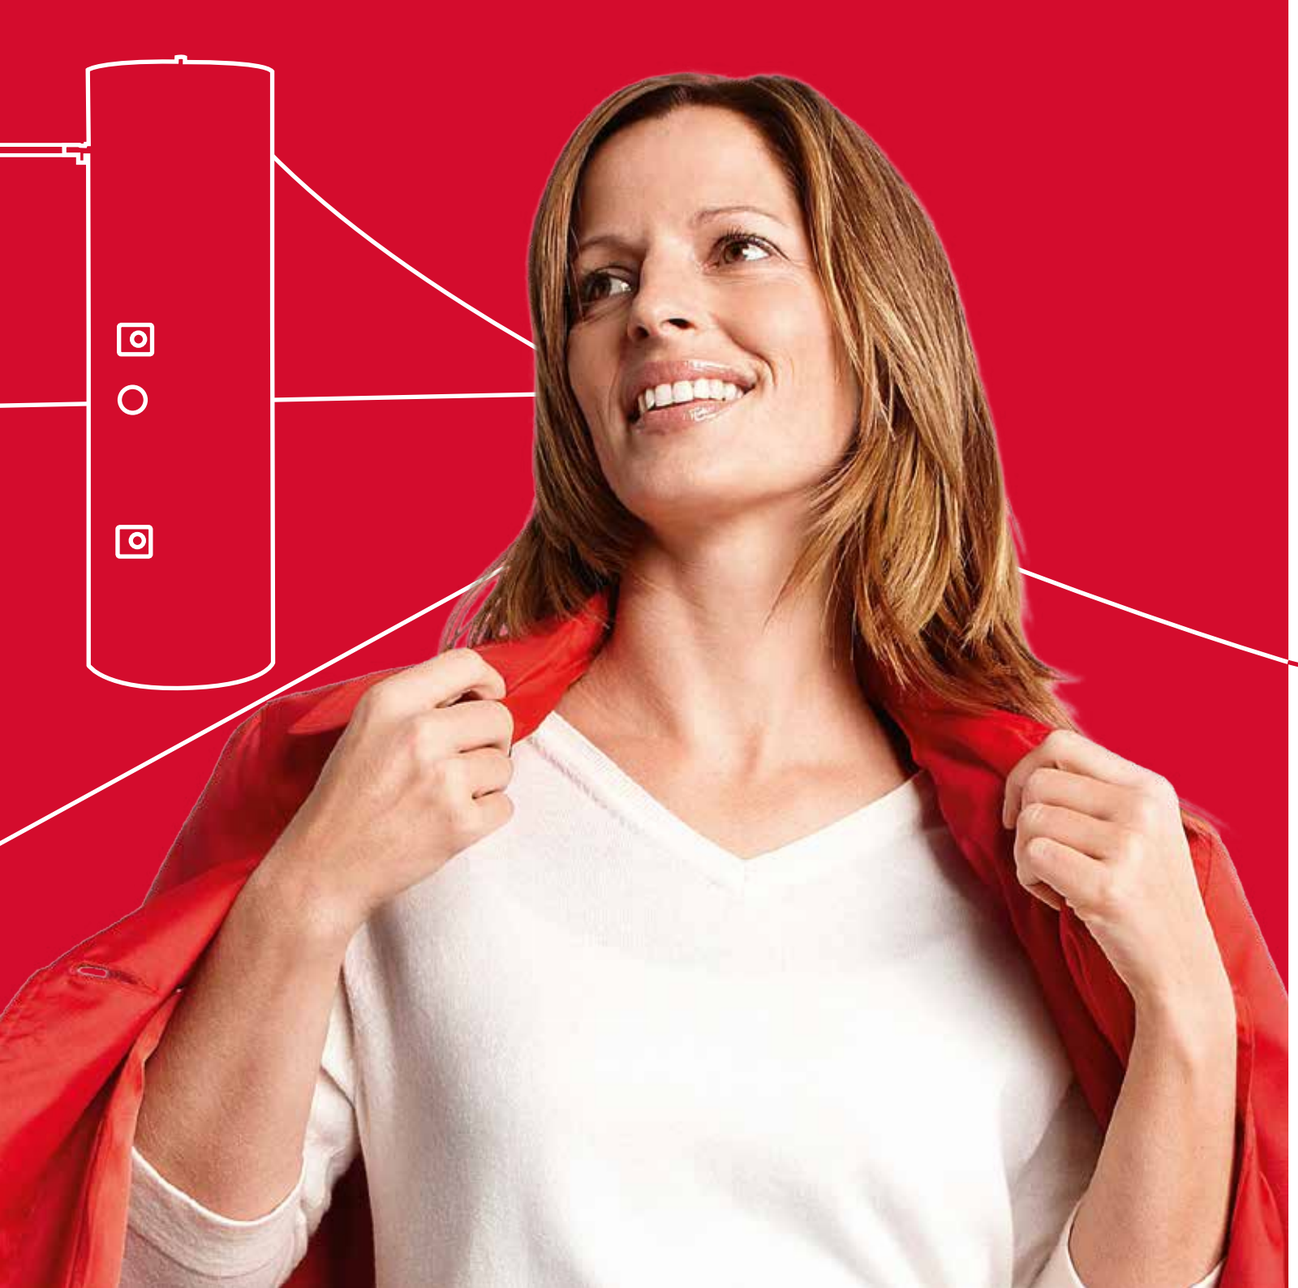

Energy combi boilers

The Energy range of combi boilers provide central heating and hot water without the need for a separate tank to store water, plus their compact design means they can be easily tucked away under the stairs or in kitchen cupboards. Combi boilers are the most popular types of boilers in the UK, now found in around 70% of homes. Available in outputs of 25, 30 and 35kW and with a choice of warranty available from your Glow-worm Club Energy installer - there's sure to be an Energy combi that's perfect for your home.

Energy combi boilers	25kW	30kW	35kW
Casing dimensions (h w d)	700mm x 390mm x 280mm	700mm x 390mm x 280mm	700mm x 390mm x 280mm
DHW flow rate (l/min, 35C rise)	10.4l/min	12.5l/min	14.4l/min
SEDBUK 2009 efficiency	89.3	89.3	89.2
ErP Rating (Heating/DHW)	A/A	A/A	A/A

Energy system boilers

You may have heard these called ‘Sealed System’ boilers. A system boiler heats water and stores it in a hot water cylinder in your airing cupboard, so you have a constant supply of hot water, but unlike a regular heat only boiler it doesn’t need a cold water tank in the loft because it draws directly from the mains water source. There are five Energy system boilers, with power outputs of 12, 15, 18, 25 and 30kW, backed with a choice of warranty available from your Glow-worm Club Energy installer.

Energy system boilers	12kW	15kW	18kW	25kW	30kW
Casing dimensions (h w d)	700mm x 390mm x 280mm	700mm x 390mm x 280mm	700mm x 390mm x 280mm	700mm x 390mm x 280mm	700mm x 390mm x 280mm
SEDBUK 2009 annual efficiency (%)	89.4	89.4	89.4	89.4	89.3
ErP Rating	A	A	A	A	A

Energy regular heat only boilers

Energy regular heat only boilers (sometimes known as open vent) provide central heating and hot water. The boiler is fed by a cold water tank in the loft, and hot water from the boiler is stored in a hot water cylinder housed in the airing cupboard, ready for when you need it.

There are five models, with power outputs of 12, 15, 18, 25 and 30kW, which means there'll be an Energy regular boiler that's perfect for your heating and hot water needs. And for complete peace of mind they're backed with a choice of warranty available from your Glow-worm Club Energy installer.

Energy regular boilers	12kW	15kW	18kW	25kW	30kW
Casing dimensions (h w d)	600mm x 375mm x 280mm	600mm x 375mm x 280mm	600mm x 375mm x 280mm	600mm x 375mm x 280mm	600mm x 375mm x 280mm
SEDBUK 2009 annual efficiency (%)	89.4	89.4	89.4	89.4	89.3
ErP Rating	A	A	A	A	A

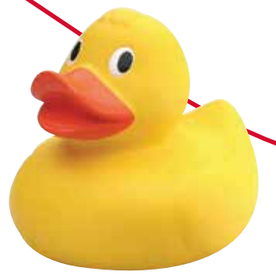

Energy 35 combi store boiler

The Energy combi store combines the benefits of both a system store and combi boiler in one package. With the storage water vessels contained within the unit, Energy combi store provides efficient heating and instant, unlimited domestic hot water, making it a great space saving solution for larger properties with a high hot water demand. The powerful Energy combi store offers fast re-heat times and is backed by a choice of warranty available from your Glow-worm Club Energy installer.

Energy 35 Store boiler	35kW
Casing dimensions (h w d)	890mm x 470mm x 561mm
DHW flow rate (l/min, 35˚C rise)	19.7
SEDBUK 2009 annual efficiency (%)	89.4%
ErP Rating (Heating/DHW)	A/A

Energy controls

Glow-worm controls are exclusive to Glow-worm boilers, offering you the ultimate in efficiency, convenience and comfort

MiGo

- Android and Apple iOS Application - easy to use app, for managing your heating and hot water
- Easy & intuitive thermostat - fast and straightforward temperature control
- E-paper display – clear display with low energy consumption
- Self learning - MiGo automatically learns the energy requirements of your home
- Internet weather compensation - MiGo only ever uses energy as and when it needs to
- Energy consumption monitoring - gas and electricity consumption for both heating and hot water

Climapro$_2$ RF Wireless Programmable Thermostat

- Wireless thermostat, works anywhere in the home
- Wall bracket for base location and secure storage
- User friendly design with bright backlight
- Clear straightforward menus to set heating & hot water programmes
- Annual service reminder and auto daylight saving time
- Control modulates the boiler to manage heating in the most efficient way possible
- Weather compensation using a simple wireless outdoor sensor

Climapro$_1$ Wired or Wireless Programmable Thermostat

- Secure wall mounted thermostat
- User friendly design with bright backlight
- Clear straightforward menus to set heating & hot water programmes
- Annual service reminder and auto daylight saving time
- Control modulates the boiler to manage heating in the most efficient way possible
- Weather compensation using a simple wireless outdoor sensor

Traditional Plug-in Timer & Thermostat

- Timer plugs straight into the boiler fascia
- Traditional interface to set heating programmes
- Control modulates the boiler to manage heating in the most efficient way possible

Energy installation & warranties

Insist that your Energy boiler is installed by a safe pair of hands.

Energy is a boiler packed with technology and its safe operation is paramount for the well-being of you and your family. Which is why you need to find an installer that is fully trained and qualified to size up your home's hot water & heating system, fit your boiler properly and look after it for you in the future.

This is why we recommend your new Energy boiler is fitted by a Glow-worm Club Energy installer, who will be able to offer you all the help and advice you need. We'd be happy to provide you with the details of Glow-worm Club Energy installers in your area, simply visit the Find An Installer **on our web site: www.glow-worm.co.uk**

Make peace of mind last longer. Invest in the perfect warranty

- Choice of warranty available from Club Energy installers
- Supported by Glow-worm with 230 engineers across the UK
- Spares availability up to 10 years after production ends
