

Product Code: 653752

Product Description: Rapid SL set for WC

Product Specification

Material: Metal

Fittings:

This installation system of the Rapid SL range provides maximum comfort for your bathroom, in every respect: with the GROHE QuickFix system, it can be installed rapidly in front of a solid wall or in a stud wall – even below windows thanks to its low height. If required, please purchase the 3855800M wall bracket to install this system. For perfect safety, its self-supporting steel frame is certified to hold loads of over 400 kg. Cleaning your bathroom will be easier than ever once the wall-hung toilet and concealed tank are in place. The GROHE Whisper noise control prevents sound transmission to adjoining rooms. With the GROHE EcoJoy dual flush system, your water consumption will be reduced by up to 50%. Flush plates are available in over 130 different designs to suit the style of your bathroom

engineering and made by GROHE!
