

TECHNICAL DATA SHEET

Product Code:

958786

Description:

Meridian-N Compact Wall-hung Basin (Right-Hand Tap Hole)

Specification:

Size: L 450mm, W 250mm, H 140mm

Material: Vitreous China

Finish: White

Installation Type: Wall-hung

Clean regularly with warm soapy water (to stop the build-up of dirt and limescale), rinse with cold water, dry and polish with any soft dry cloth. A cream cleaner can be used.

Occasional use of mild bathroom limescale removers can be used in accordance with the manufacturer's instructions, rinsing off immediately with plenty of cold water.

Use of bleach in the toilet bowl is acceptable.

A ceramic rubber can be used to remove any metal marks or minor blemishes.

In hard water areas we strongly recommend that inhibitors or water softeners are fitting to the system during installation to help prevent limescale attack. Do ensure that in hard water periodic checks are made to the diaphragm washer, located on the bottom of the flush valve.

Do not put bleach products (such as bleach blocks or tablets) in the actual cistern as this can damage the internal fittings and will invalidate the warranty on these parts.

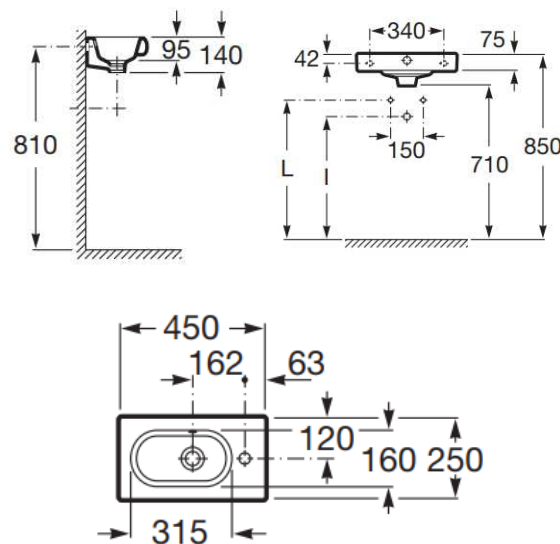

Do not put strong cleaners or bleach to stand in the product overnight.

Do not mix different cleaners in the WC as they can cause a chemical reaction and give off poisonous gas.
