TECHNICAL DATA

IYA
PREMIUM LADDER RAILS

The Iya is designed to provide greater heat output than a standard ladder rail, thanks to the inclusion of extra pipes. Available in three premium powder coated finishes to achieve higher outputs. It also works excellently with air source heat pumps.

Safety tested at 13 bar pressure.

Normal household pressure is under 5 bar.

5 YEARS Manufacturers warranty

Central heating, dual fuel & electric

Available in pearl silver, anthracite & black

Features & Benefits

- High heat output achieved by using two sets of 22mm bars.
- Can be used on central heating or dual fuel systems.
- Wide range of sizes.
- Powder coated finishes for higher outputs.
