- Shaver Socket
- Demister Pad
- Backlit
- Correlated colour temperature technology

## Product overview

The Raleigh is a contemporary illuminated LED mirror capable of making a design statement in any bathroom.

The mirror features backlit LED's which provide an elegant glow, and colour changing technology enables the mirror to switch between task lighting and mood lighting.

The touch pad located on the front face enables complete control of the lighting, and an integrated shaver socket ensures that daily essentials stay fully charged and ready for use.
