Product Details

Dimensions:

190 (H) x 170 (W) x 80 (L) mm

Electric Underfloor Heating cable kits provide a reliable and effective underfloor heating system that can work with tiles and many other floor coverings underfloor heating system and thermostat comes with a Lifetime Warranty. Please note this Warranty does not cover HeatMiser and AUBE thermostats as these brands are covered by their own manufacturers warranty.

- Our high quality ETFE advanced insulation system is made with the highest quality Fluoropolymer's and does not contain any PVC coatings whatsoever
- ProWarm™ systems are only 2mm in thickness making our cables one of the thinnest on the market today.
- The advantage of our ultra-thin cable means that they can be tiled straight over if needed.
- ProWarm™ heating systems are constructed using multi strand wires making them extremely tough.
- Lifetime Warranty

Guarantee: Lifetime Years
