TECHNICAL DATA SHEET

- Water left on the unit after use, should be removed with a dry cloth to prevent possible water damage. The unit should not be splashed with water from other sources, e.g shower.
- Elements should be cleaned with agents intended for such materials. Do not to use any sharp items, cleaning milk or paste with abrasive or polishing properties.
- Painted and laminated surfaces should not be scrubbed with cleaning powders, as they will permanently scratch the surface. For safety reasons, agents containing chlorine or other strong bleaching agents should be avoided. Using them can destroy the furniture. Dust, grease and stains are the most visible impurities settling on furniture. To remove such dirt, use a soft, dry or damp cloth.
