

# Solardek Rubber Foot

## Specification

Rubber Block Support Foot made of environmentally friendly recycled rubber materials, which complies with the EU ROHS standard. The Rubber Feet are supplied with 41 x 21 channel rail with screw sets and spirit bubble.

## Application

The products are a floor mounted Rubber Support designed to support Air Source Heat Pumps (ASHP), pipe work and cable tray.

Additionally, the feet provide moderate amounts of noise and vibration absorption.

Suitable for external and internal locations for temperatures between -40°C to 80°C.
