

# Nest Protect Smoke and CO alarm

The smoke alarm other alarms look up to.

Nest Protect has been redesigned from the inside out. It has split-spectrum sensor, can be silenced from your phone, tests itself automatically and lasts for up to 10 years. It also tells you what's wrong and can even alert your phone.

The Nest protect is available in battery and wired configurations.

## KEY FEATURES

### **Get alerts on your mobile.**

Nest Protect can send you a message when there's a problem or the batteries are running low.

### **Tells you what, and where.**

Nest Protect speaks up if there's smoke or CO and tells you where it is so that you know what to do.

### **Sees the CO that you can't.**

Carbon monoxide is an invisible poisonous gas. Nest Protect tells you where it's hiding.

### **A light in the dark.**

Nest Protect usually has its light turned off, but when you walk underneath it, Pathlight can light your way.

### **Every second counts.**

The Split-Spectrum Sensor looks for both fast and slow-burning fires.

### **Silence from the Nest app.**

Just burned the toast? Silence the false alarm with your mobile, not your tea towel.

### **Up to 10 years life span.**

Nest Protect's long-lasting sensors keep you safe and sound for up to a decade.

### **Sleep safely and soundly.**

Nightly Promise is a quick green glow that can be seen when you turn off the lights, letting you know everything's working as it should.

NEST PROTECT SPEAKS TO YOU IN WORDS AND COLOURS

**Blue:**  
Set up and configuration.  
Also seen on product demos.

**Green:**  
Nest Protect regularly monitors its sensors and batteries. A quick green glow when you turn out the lights says everything's working.

**Yellow:**  
If there's only a little smoke, like you've just burned toast, it will glow yellow and give you a friendly Heads-Up so you can check on things.

**Red:**  
When smoke or carbon monoxide reaches critical levels, Nest Protect sounds the alarm, pulses red, and tells you where the emergency is.

**White:**  
When you walk under Nest Protect at night, it will light your way. You can choose different light levels or turn Pathlight off entirely in the app.
